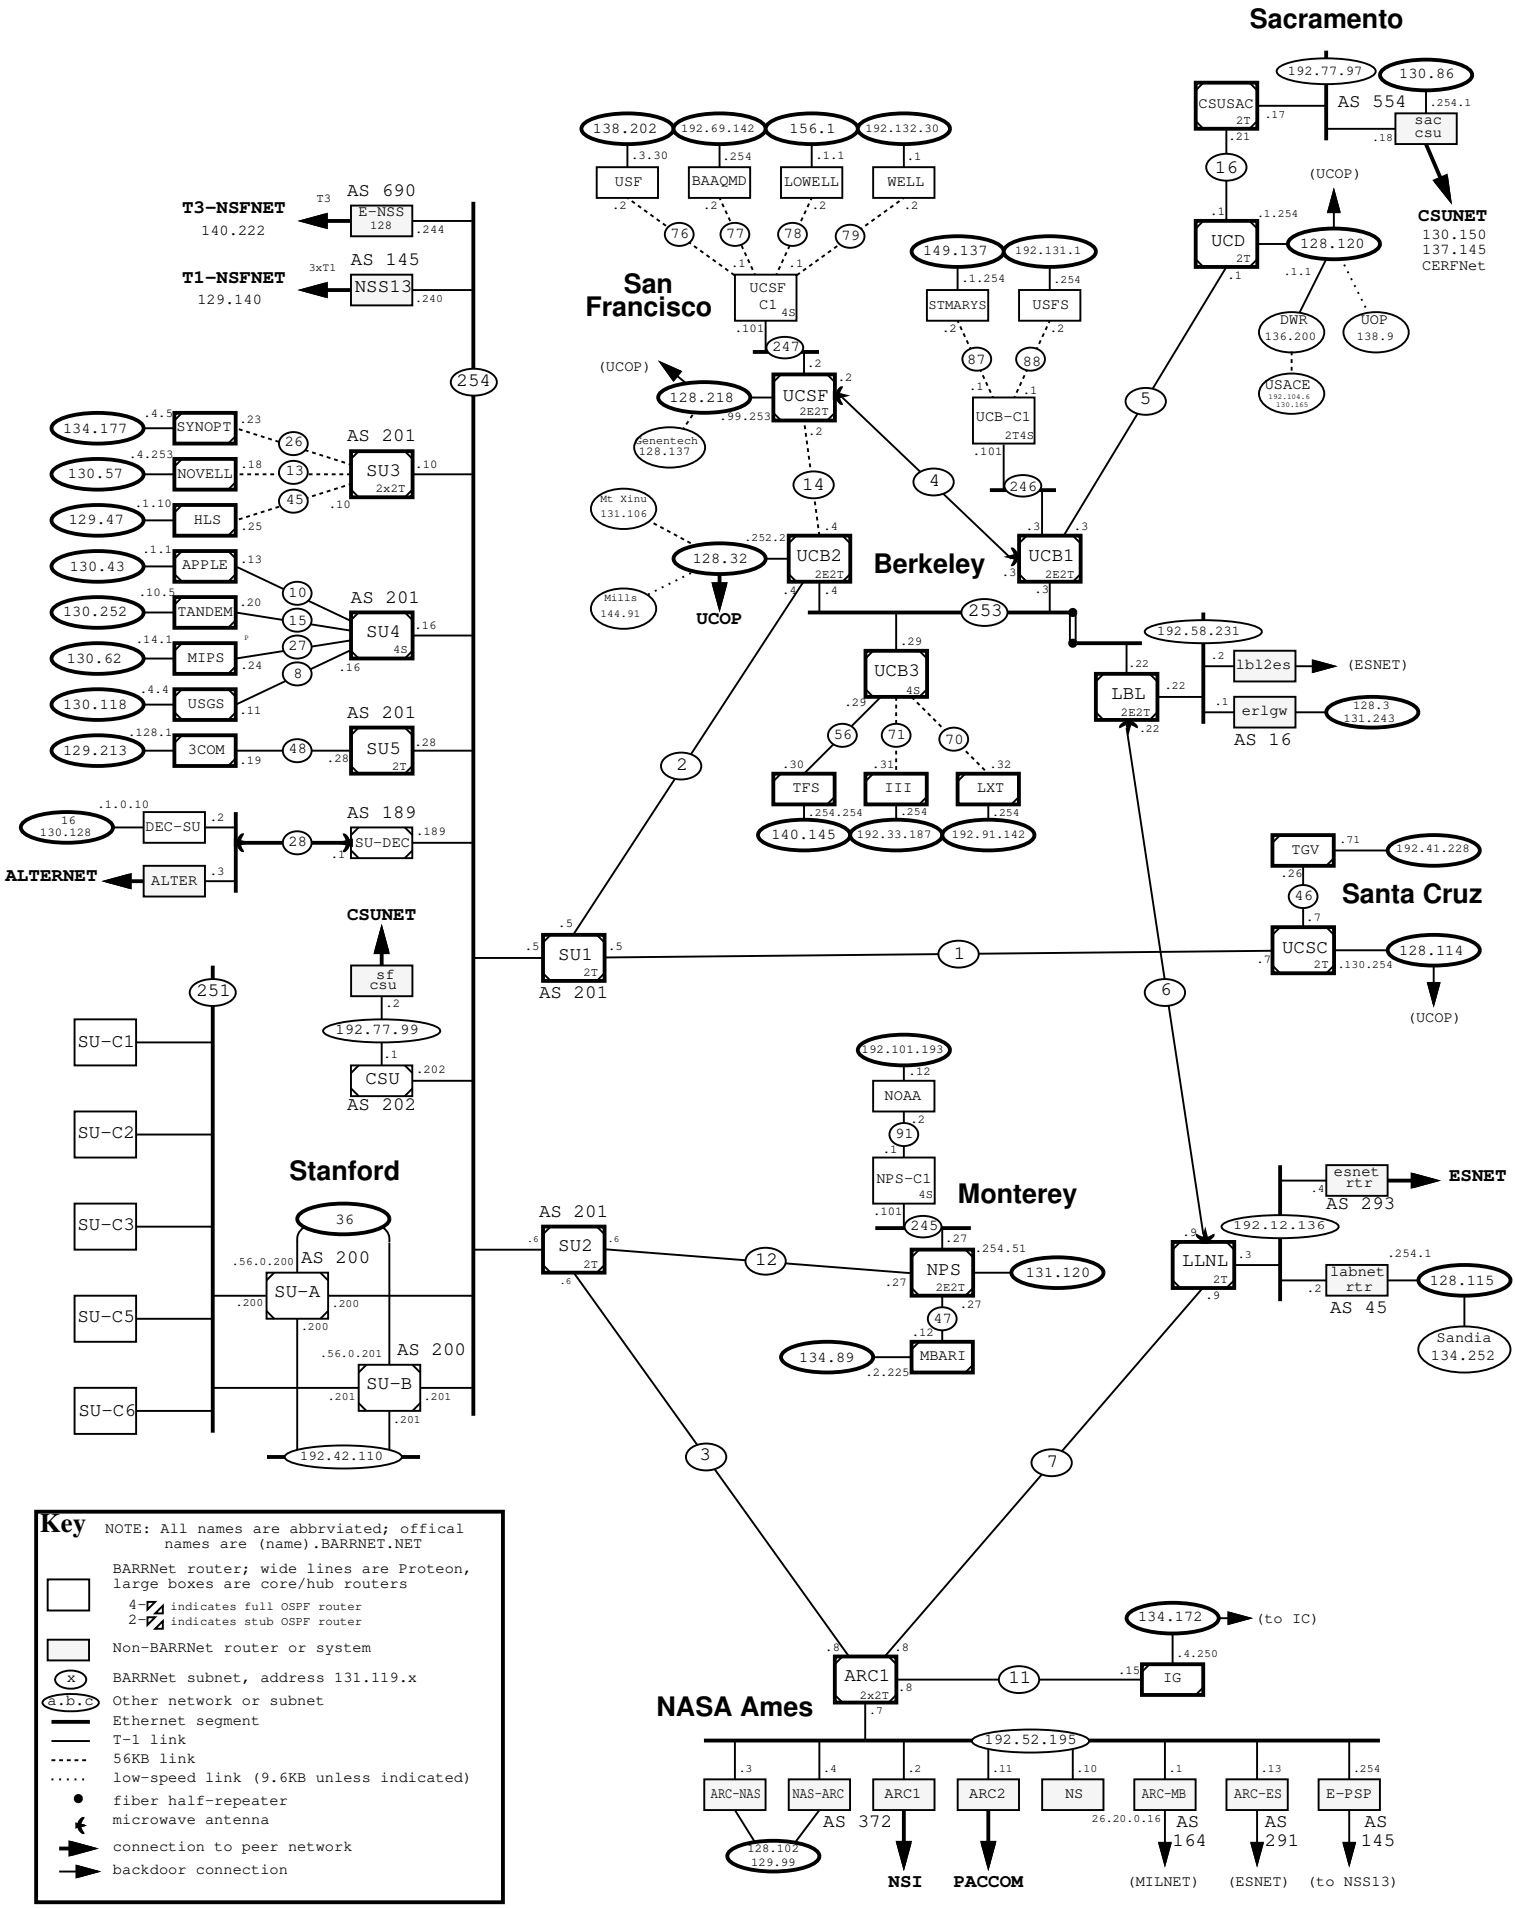
BARRNet Network Map

NIC.BARRNET.NET:~ftp/barrnet/barrnet.ps
(page 1 of 2: core topology)
19 December 1991



Key

NOTE: All names are abbrviated; offical names are (name).BARRNET.NET

- BARRNet router; wide lines are Proteon, large boxes are core/hub routers
  - 4-▱ indicates full OSPF router
  - 2-▱ indicates stub OSPF router
- Non-BARRNet router or system
- (x) BARRNet subnet, address 131.119.x
- (a.b.c) Other network or subnet
- Ethernet segment
- T-1 link
- 56KB link
- low-speed link (9.6KB unless indicated)
- fiber half-repeater
- microwave antenna
- connection to peer network
- backdoor connection
