I) Situation
   a. Enemy Forces: OPFOR
      i. Typically composed of 2-3 man teams, lightly armed with M16A2 rifles. Also occasionally have use of vehicles, and may have bunkers with crew-served weapons.
   b. Friendly Forces: MIT Army ROTC Cadre
      i. Will function as tactical advisors during Squad STX operations and will oversee the entire Field Training Exercise
   c. Attachments/Detachments: BU AROTC Charles River Brigade

II) Mission: The Paul Revere Army ROTC Battalion conducts a joint Spring FTX with Boston University AROTC in order to provide cadets with proper training in squad tactics and a practical field experience

III) Execution
   Intent: It is the Commander’s intent that all cadets learn key aspects of small unit leadership and field-craft, and that all MSIIIs are adequately prepared for LDAC
   a. Concept of the Operation
      i. Phase I: ADVON Deployment
      ii. Phase II: Main Body Deployment
      iii. Phase III: Patrol Base Operations
      iv. Phase IV: Squad STX and Patrol Base Operations
      v. Phase V: Range Operations
      vi. Phase VI: Redeployment/Recover
   b. Maneuver
      i. Phase I: The Advance party (Ocasio, Burns, Wellman) will deploy to FT. Devens from MIT NLT 170900APR09. ADVON will arrive at the unit NLT 170800APR09 hrs to prepare for departure. They will also take the following equipment with them: weapons in weapon racks, hand receipts, water jugs, MREs, equipment for Saturday’s STX lanes rucks for all Cadets.
      ii. Phase II: The main body deployment will occur by two methods: air and ground-based transportation. Those Cadets being transported by air will travel from Harvard to Ft. Devens in two lifts, and from Winter Island to Ft. Devens in one lift; each lift consisting of two helicopters.
         Harvard LZ:
            NLT 171230APR09, all Endicott Cadets traveling by air will be present at Endicott, and they will leave via the Endicott Van at 1245 for the Harvard LZ. All Boston Cadets and Endicott Cadets traveling by air will arrive at the Harvard LZ NLT 171300APR09, with all equipment not already left at the unit. At approximately 1400, the two aircraft will arrive at the Harvard LZ; the first lift will leave for Ft. Devens NLT 1445. Following transportation of the first lift, the second lift will leave Harvard at 1525.
         Winter Island LZ:
            NLT 171300APR09, all North Shore Cadets traveling by air (except Endicott) will arrive at the O’Keefe Center at Salem State. They will leave the O’Keefe center by van NLT 1330 with MAJ Perrin. The van
will arrive NLT 1400 at the Winter Island LZ. The aircraft for the Winter Island lift will arrive NLT 1600, and transport Cadets to Ft. Devens.

**Ground Transportation:**

Those Cadets traveling by bus on the Boston side will arrive at the MIT Army ROTC building NLT 171430APR09. They will depart MIT NLT 1500, after a roll call is conducted by CDT Bras. A bus will also be staged at the Salem State O'Keefe Center, for those North Shore cadets unable to fly (and as a contingency for any loss of air transportation).

**Late Vans:**

Late vans will also be transporting those Cadets who cannot make the regular air or ground transport times. These Cadets will leave from MIT (CPT McMahon at the unit) and Salem State (MAJ Perrin at the O’Keefe Center) in vans NLT 172000APR09.

**iii. Phase III:** Friday patrol base operations will begin upon arrival at Ft. Devens on 17APR09. Boston Company will occupy the patrol base upon arrival and link up with North Shore Company. If North Shore is delayed, Boston Company will proceed with Friday night classes. In addition, as Cadets arrive at the patrol base, CDT Wellman, SSG Andrews and Mr. Thomas will begin to issue out weapons and MREs to all MSI’s, II’s, and III’s.

Following the arrival of all Cadets (not including late van) by approximately 1700, field craft and PB classes will begin. Following completion of classes, Cadets will consume their dinner meal and begin priorities of work for the night. Following completion of priorities of work, MSI’s and II’s will begin their rest plan at approx. 2200. MS III’s will continue to prepare for STX lanes until 2300, at which time they will begin their rest plan.

**iv. Phase IV:** This phase begins with first call at 180400APR09 and concludes with lights out. First call at 0400 hrs is followed by breakfast meal (A) and a police call at 0500hrs, BN formation at 0535hrs, link-up with BU at 0545, and movement to the first lane rotation at 0600. Rotation 1 begins at 0630 and STX lanes will proceed until 1910. Cadets will ruck back to the patrol base where, following a brass and ammo check, a BN formation will be held. After gaining accountability, the dinner meal (hot) will begin at 1930. CPT Griffiths and CDT Ocasio will serve as ADVON for hot chow. Immediately after dinner, MS Is and IIs will conduct additional training from 2000-2100. This will be followed by a tick check and personal hygiene from 2100-2200. When training is completed, the Platoon Leaders will post a security rotation followed by rest plan NLT 2200. MS IIIIs will conduct a debriefing, additional training, and patrol base operations in the adjacent field from 2000-2200. In the event of inclement weather, hot chow and billeting will be moved to Bldg. 653C/D.

**v. Phase V:** First call will be 190600APR09, followed by personal hygiene and a police-call. Cadets will then begin a ruck march NLT 0630 to Range X-1 on foot (4 miles). Range ADVON will proceed by vehicle to the range NLT 0630hrs. Once at the range, hot chow will be conducted from 0730-0800. This will be followed by range operations from 0815-1130. Cadets will receive a safety brief from the c/XO, zero and qualify, and move to the Bldg. 653C/D for weapons cleaning as they finish. The range will be cleared from 1130-1200, and a brass and ammo check will occur from 1200-1215. At 1215, Cadets will clean weapons UTC; approximate time of completion is 1430. Each weapon must be inspected by an MSIV/cadre
prior to dismissal. As each weapon is turned-in, it will be loaded onto the box truck with Mr. Thomas supervising.

vi. This phase begins at approximately 191430APR09 with the conclusion of range operations. The buses will depart following completion of weapons turn in for MIT and the North Shore. Vehicles will also depart, carrying weapons and equipment, for MIT. FTX AARs may be conducted en route. Following arrival at the North Shore and accountability, Cadets will be released. Upon arrival at MIT, Boston Company cadets will form up in the parking lot and carry all equipment inside. Following accountability of all Cadets and completion of equipment turn-in, all Cadets will be released.

c. Tasks to Maneuver Units:
   i. Cadre: Supervise all movements, formations and training; supervise and coordinate aircraft transportation
   ii. c/XO: Perform all safety briefs, and leave as part of ADVON on Friday
   iii. c/S-3:
      1. Supervise Boston transportation plan
      2. Enforce timelines, and serve as liaison with BU AROTC
   iv. c/S-4:
      1. Coordinate weapons issue, MRE issue, transportation
      2. ADVON for all events
   v. c/CSM:

      2. Make decisions concerning security plan during patrol base operations
   vi. CDT Burns, Bras, Bilotti, and Chiappini: Serve as Lane TACs
      1. Rehearse OPORDs for lanes NLT 141700APR09 with c/S-3
      2. Rehearse lane operations with OPFOR NLT 15APR09.
   vii. Platoon Leaders:
      1. Ensure accountability of weapons and personnel
      2. Ensure all cadets attend BN PCI on 150700APR09
   viii. Platoon Sergeants:
      1. Ensure there are no deficiencies in equipment prior to FTX
      2. Ensure all cadet LBE, Kevlar, and rucks are operational and properly configured.
      3. Work with PLT Leader to create security plan each night, and enforce proper uniforms, weapon discipline, and patrol base posture.
      4. Organize a police call for patrol base prior to departure.
