THE NEW SUV STANDARD:

OK, we give up. If you can't beat ?em join ?em! We've realized the profit potential of SUVs and have decided to cash in on it ourselves. We had hundreds of orders placed for the 1998 Pilgrimage, so we are offering it again this year with an exciting new version! Presenting the 1999 Kenworth Pilgrimage, the SUV of the future, today:

Has your Suburban or Expedition gotten too small for you, or have the Jones' just one-upped you once again with a new Hummer? If you thought that so-called "large" SUVs like the Expedition have a tough look, then you need to check out the new Kenworth Pilgrimage!

We buy Kenworth semi chassis and build SUVs on them. Shown is the Dominator model, which includes the eight rear wheels for handling those trips to Sam's Club.

Use our new Order Form to reserve YOUR Kenworth Pilgrimage.

SOON TO COME:

The **Grand Camper**, a new model line based on a Winnebago, the worlds first sport-utility motorhome!

(Note: we deny all rumors that a sport-utility trailer home is in the works, and the double-wide model is a total lie.)

In case you can't tell, this isn't for real. It's just a joke already!
