General Instructions

A Change to Note for 1996

The Small Business Job Protection Act repealed the partial interest exclusion of Code section 133 effective, in general, with respect to loans made after August 20, 1996. However, Schedule E (Form 5500) must be filed for securities acquisition loans made to ESOPs before August 21, 1996, loans made pursuant to a written binding contract in effect before June 10, 1996, and at all times thereafter before the loan was made, and certain loans made after August 20, 1996, to refinance a securities acquisition loan originally made on or before August 20, 1996.

Purpose of Form

Use this schedule to satisfy the requirements under Code section 6047(e) for an annual information return for an employee stock ownership plan (ESOP).

Who Must File

Every employer or plan administrator of a pension benefit plan that contains ESOP benefits must file a Schedule E (Form 5500).

How To File

File Schedule E (Form 5500) annually as an attachment to Form 5500, 5500-C/R, or 5500-EZ.

Specific Instructions

Lines 6 through 11.—A "securities acquisition loan" is an exempt loan to an ESOP to the extent that the proceeds are used to acquire employer securities for the plan.

Line 6.—A "back to back loan" is a securities acquisition loan from a lender to an employer corporation followed by a loan from the corporation to the ESOP maintained by the employer corporation. A "back to back loan" constitutes a "securities acquisition loan" under Code

section 133 if the following requirements are satisfied:

a. The loan from the employer corporation to the ESOP qualifies as an exempt loan under Excise Tax Regulations sections 54.4975-7 and 54.4975-11;

b. The repayment terms of the loan from the corporation to the ESOP are "substantially similar" (as defined in Temporary Income Tax Regulations section 1.133-1T) to the repayment terms of the loan from the corporation to the lender; and

c. If the loan from the corporation to the ESOP provides for more rapid repayment of principal and interest, the allocations under the ESOP attributable to such repayments do not discriminate in favor of highly compensated employees (within the meaning of Code section 414(q)).

Line 7.—An immediate allocation loan is any loan to an employer corporation to the extent that, within 30 days, employer securities are transferred to the ESOP maintained by the corporation in an amount equal to the proceeds of the loan and the securities are allocable to the accounts of plan participants within one year of the date of the loan. (See Code section 133(b)(1)(B).)

Line 8c.—The transition rules of Act section 7301(f)(2) through (6) of the Omnibus Budget Reconciliation Act of 1989 (OBRA), P.L. 101-239, provide that the amendments made to Code section 133 by OBRA will not apply to certain loans that satisfy the requirements of those paragraphs. In general, the amendments made by OBRA will not apply to:

1. Loans made pursuant to a binding written commitment in effect on June 6, 1989, and at all times thereafter before the loan was made, or pursuant to a written binding contract (or tender offer registered with the Securities and Exchange Commission (SEC)) in effect on June 6, 1989, and at all times thereafter before such securities were acquired;

2. If subparagraph **1** does not apply, loans made pursuant to a binding written commitment in effect on July 10, 1989, and at all times thereafter before the loan was made, but only to the extent that the proceeds were used to acquire employer securities pursuant to a certain binding written contract; (or tender offer registered with the SEC) in effect on July 10, 1989, and at all times thereafter before the securities are acquired;

3. Any loan made on or before July 10, 1992, pursuant to a written agreement entered into before July 10, 1989, if the agreement evidences the intent of the borrower to enter, on a periodic basis, into securities acquisition loans described in Code section 133(b)(1)(B) (as in effect before December 19, 1989). This rule applies only if one or more securities acquisition loans were made to the borrower on or before July 10, 1989.

See Act section 7301(f)(2) to determine the specific requirements of the transition rules described above. See Act section 7301(f)(3) through (6) for additional transition rules on refinancings, collective-bargaining agreements, filings with the United States, and the 30% test for certain loans.

Line 9.—If the loan is a back to back loan or an immediate allocation loan, enter the amount of interest paid by the employer corporation to the lender(s) during the plan year.

Line 15, column (d).—In determining the dividend rate for a class of common stock, use the percentage of the average dividends paid on the class of common stock during the plan year over the average value of the class of common stock during the plan year.

In determining the dividend rate for a class of preferred stock, use the dividend rate stated in the terms of the stock, or if a dividend rate is not stated, use the percentage of the average dividends paid on the class of preferred stock during the plan year over the par value of the class of preferred stock.
