Upcoming SIPB Events

SIPB Pizza Party

Saturday, September 1, 2007, 7PM, W20-557

Hang out with SIPB members in the SIPB office and enjoy the free food.

SIPB Meetings

Every Monday, 7:30PM, W20-557

SIPB holds its weekly meetings on Mondays at 7:30PM.

SIPB Computer Stories

Wednesday, September 5, 2007, 8-10PM, 4-231

Come hear stories about MIT's computing infrastructure from MIT network manager and legendary storyteller Jeffrey Schiller. Snacks will be provided.

SIPB Computer Tours

Thursday, September 6, 2007, 7:30-10PM, Lobby 7

Come see the machine rooms that run MIT's campus network. This is a rare opportunity to see the data centers that house your favorite MIT servers. We will also see some projects of the MIT Computer Science and AI Lab, including MIT's DARPA Grand Challenge vehicle.

SIPB Projects Hackathon

Saturday, September 8, 2007, 5-9PM, W20-557

SIPB will host a hackathon to hack on interesting computing projects. Drop by and get involved! Dinner will be provided.

SIPB Cluedump Series

Mondays, September 10–December, 2007, 8:30PM,
56-114 or 1-190 (see schedule for details)

SIPB will host a series of weekly informal evening technical talks on computing at MIT and at large. SIPB experts will discuss topics like the design of Athena, Athena components including the AFS distributed filesystem, legal issues, the story of Multics, and the scripts.mit.edu design. The talks are independent, and no specialized background is assumed. The schedule can be found at http://cluedumps.mit.edu
