## Manipulating an Enochian Binding Grid

---

You recognize that device – Item #7391 is an Enochian Binding Matrix! You recognize the technology from some of the more occult research you've done with the Laundry, although it's a device the Laundry would never manufacture or use itself. The device, in short, is a soul prison – it can be used to capture and contain the soul of a helpless victim. You wince, slightly, at the thought of your own human soul, now so dear to you.

And . . . your demonic perception is tingling. This device is charged! There's a human soul trapped in there!

Your special training with the Laundry, combined with your innate demonic powers, would allow you to manipulate this device, if you desire. A human soul is a powerful thing, and channeling the entropy released by its destruction could help you accomplish things far beyond your current abilities, such as breaking a very powerful geas. On the other hand, that's a human soul! If its poor owner is still alive and you could find them, you could restore their soul to them.

### If you want to destroy the soul

1. Find a GM and indicate what you want to do with the released energy
2. Find an operational **Base Mainframe**
3. Spend two minutes tuning the device
4. Go to a research lab
5. Spend five minutes working on the device
6. Destroy the device, and consult the GM

### If you want to return the soul to its owner

1. First, find the soul's owner. There's no guarantee they're anywhere around here – or even alive.
2. Find a GM
3. Find a **screwdriver** and a **sledgehammer**
4. Spend two minutes preparing the device
5. Take the device and the owner to the waterfront
6. Spend 3 minutes with both you and the owner's hands on the device.
7. Destroy the device and consult the GM.
