what's it all about?

Wednesday, Jan 23; 12-1; Rm 3-370
(no registration, no advance sign-up)

This hour-long session will give you a better appreciation of the work and world of programmers, web-designers, system engineers, etc. You'll get an overview of the structure and building blocks of the web, thus enabling a better understanding of the language of the people who build, design, and maintain it… and maybe leading you to delve further into it on your own.

Questions? ruggles@mit.edu
