Alex,

Your concern is a matter of logical letter structure, which I appreciate. I'm not exactly sure where further elaboration would fit but I will look into it and discuss it with mac-exec and mac-rac.

Hey Jeanette,

I approve the letter as is, but I do have a concern about the second bullet. It seems as if we elaborate on the other 2 bullets, but not on the second one at all. I think we should at least have a sentence or two somewhere that describes that second bullet a little more in detail. Thanks!

From working with entries F and H, I have made the following revisions to the initial statement that I sent out earlier. Please continue to send me approvals or revisions as you deem necessary. I will be gone for most of the evening, but should be back by midnight so that I can incorporate further revisions so that we might get this out sometime tomorrow.

Thank you for your help and patience during this process.
