

Smoking policy for MacGregor House.

Section I – Smoking in House Locales.

There will be absolutely no smoking in any common house areas of the building. This includes, but is not limited to, the front lobby, the recreation room, the tv room, the weight room, the darkroom, the music room, the TFL, the dining hall, and any other public area of the building.

Section II – Smoking in Entry Locales.

There will also be absolutely no smoking in any public areas of the entries. This includes, but is not limited to the entry main lounges, the suite lounges, and the corridors. Entries may modify this section of the policy to allow smoking in their lounges. Such a policy change must be approved by the entry. It also must be submitted in writing to both the House President and the Judicial Committee Chair.

Section III – Smoking in Resident Rooms.

Smoking in your room is okay, however, if the smoke bothers someone else, then the smoker must cease and desist. Smoking outside the building is acceptable.

Section IV – Violations and Fines.

Violations of this policy will result in penalties and fines from the Judicial Committee. The first penalty will result in at least a \$50 fine, and each subsequent fine will increase by \$50. The penalties can be more severe, and can include anything in the Uniform Judicial Code up to and including recommending to the dean's office that the resident be removed from the dorm.
