House rooming notes

- ?? Leah: De-crowd as many freshmen as possible into your entries, keeping at least 4 rooms open for the incoming class. A list of post-transfer residents will be emailed out to HouseComm this week. Inter-entry moves must wait to be approved after this lottery of current residents has been conducted.
- ?? Laurence: All entry lotteries must be completed on or before Sunday night. All entry chairs must email both Laurence lauwong@mit.edu and Leah maryjane@mit.edu with their results.

“Get Sprung” party on Saturday, April 27, 2002

- ?? Carl: Security is the most important issue at the time; we need as many volunteers as possible to keep the party running smoothly.

Notes from meeting with Jim Heeger ‘78

- ?? Sean: The general tone of the meeting was one of reminiscence. Mr. Heeger seemed pleased at “how far the dorm has come along” socially.
- ?? Joe: During the final half of the meeting, there was an increased emphasis on ways of spending a potential donation. Mr. Heeger seemed very interested in expanding the social aspects of the dorm. Several ideas were informally discussed: constructing an Athena cluster; bringing back trips to the Cape, as well as more dorm-wide events; and establishing the TFL as a more welcoming, and possibly divided, study space. Formal proposals will come in the near future.

Weight room update

- ?? Laurence: There will be a weight room inspection carried out early next week to test the integrity of the current equipment. We are receiving new leg extension and fly machines; other future expenditures may include additional fans, a clock, and minor hardware.
