JAN GUNTHER, FALL '84
BERNIE GUNTHER, FALL '81

1 JAMES WAY
CAMBRIDGE, MA 02141

Phone: 576-4634

How would people get to your house? Walk. We are about a 10-15 minute walk from campus. James Way is on Cardinal Medeiros Avenue, which is also called Portland Street. This is the street separating Tech Square from the projects. You'll pass One Kendall Square on the right on your way. It's the fourth block past Hampshire Street on the right. Blue house on the corner of James and Medeiros. We could get people back to campus later without a problem.

Other interesting information (Jobs, hobbies, offices held, etc.): Bernie and Jan both graduated in 1985, both with degrees in computer science and cognitive science or management. Jan works in a small software company in University Park and is a project manager (whatever that means). Bernie works in a large consulting firm in New York City and is a frequent flyer. (You'll have to ask him what he really does!) Both love to garden, cook and hang out on tropical beaches getting bored.

LEO HARTEN, '77

29 PUTNAM AVENUE, APT 6
CAMBRIDGE, MA 02139

Phone: 492-6079

We are 1.5 blocks west of Mass Ave at Crate&Barrel, Au Bon Pain, at about 1050 Mass Ave, where Mt Auburn turns into Mass Ave. Bus to that corner and walk over, right next to Cremaldis.

We have apartment with Internet connection, VAX-Station II, SUN-3 and SUN-4, 2 cats. My wife is a great cook. (Remember how skinny I was? I'm about 160 now, up from around 135 lbs.) I was UMOC/Homecoming queen before joining APO.

Take the Harvard bus from MIT toward Harvard. Stop across the street from Au Bon Pain at about 1060 Mass Ave, where Mt. Auburn street comes down into Mass Ave at Putnam. Cross the street and go 1.5 blocks down Putnam Avenue, which is perpendicular to Mass Ave/Mt Auburn. We are right next door to Cremaldis, on the second floor. Just ring the buzzer for #6

Duffy O'Craven, Fall '79
Kathy O'Craven, Fall '84

75 Gore St #2
Cambridge MA 02141

Phone: 617-491-2584 (H)
617-965-5200 (W Duffy)
617-726-5818 (W Kathy)

How would people get to your house? Walk from MIT or walk from Lechmere T station or walk from Cambridgeside Galleria which can be reached via free shuttle bus from Kendall Sq.

Jobs, hobbies, offices held, etc.: I work as a software developer at Dragon Systems, Inc. doing computer Speech Recognition. Kathy works at the Charlestown research facility of Mass General Hospital (Charlestown-MGH) doing functional MRI: taking motion pictures of the blood flow inside the brain during cognitive activity.

Duffy was MVP F81 and held various sub-execcom positions while an undergrad in AX. He was SVP of AXAA during 1987-88, and Treasurer/Publisher 1989-90. Kathy was Apocrypha Editor while an undergrad in AX. She has been at the University of California - Berkeley for the past six years. Over the summer Kathy and Duffy got married and moved back to Cambridge. Both are active in sailing at the MIT Sailing Pavilion, and they can be found at many LSC movies.

CAROLINE ROOS, SPRING '82
SCOTT MEEKS, FALL '82
AMOS MEEKS, FALL '10

54 BATES RD
ARLINGTON, MA 02174

Phone: 648-4014

How would people get to your house? Take the red line to Alewife and call. We are about 1 mi from Alewife

Other interesting information (Jobs, hobbies, offices held, etc.): Caroline aka C—- is AXAA SVP '93-'94. Scott was AXAA Prez '89-'91. C— was SVP and Scott was Prez Spring '85. Scott works as a computer scientist as Open Software Foundation. Caroline an environmetal engineer and a homemaker and is expecting her MS from Lowell in Environmental Engineering Jan '94. Amos is an active toddler (subject to growth without warning) with lots of fun toys to share.

ELLEN KRANZER, SPRING '81
STEVE MCDONALD, FALL '81
MARY ANNE MCDONALD, SPRING '86

18 RIVERDALE STREET
ALLSTON, MA 02134

Phone: 254-0057
Ellen @work: 495-5255

| | |
|---|---|
| Ellen's Email address: | `ekranzer@harvard.edu` or `ccrazy@athena.mit.edu` |
| Steve's Email address: | `mcdonald@astron.mit.edu` |
| Mary Anne's Email address: | `mmcdonal@harvard.edu` |

How would people get to your house?

#70 Bus from Central Square. Stops at the corner of Riverdale Street & Western Avenue. 100 yard walk to house.

*–or–*

#86 Bus from Harvard Square. Stops at the corner of Riverdale Street & Western Avenue. 100 yard walk to house.

*–or–*

#66 Bus from Harvard Square. Stops at the corner of Western Avenue & North Harvard Street. 2 block walk to house.

*–or–*

I might be able to pick you up/drop you off on campus.

Other interesting information (Jobs, hobbies, offices held, etc.):

ELLEN: APO Offices: AX Historian (some time ago, before it was an elected position), Apoc Ed (Spring 1983), Region I Alumni Representative (1988-present), Region I Staff (oh about 10 years now), National Publications and Public Relations Committee member (1993-?)

Other activies: Active member of the Society for Creative Anachronism – special interest, archery. Active member of the M.I.T. Assassin's Guild. Marginally active MITSFS keyholder.

Hobbies: Filk. (Music about science fiction, fantansy, science and science fiction fandom.) Going to Science Fiction Conventions. Bridge and other similiar card games. Gaming of various kinds.

We have cats. Big fuzzy cats. Lots and lots and lots of furry cats.

Steve works for the EAPS Dept at MIT, calculating candidate stars for occultation by Pluto and Triton. Steve is a very active member of the Society for Creative Anachronism (the SCA) which strives to re-create the Middle Ages (without the plagues.) Steve is a member of the local SCA company of archers and is frequently out "shooting at unsuspecting targets in the woods". Steve is also the local contact person for people wanting information about the SCA. If you are interested in learning more about the SCA, come to dinner and give Steve a captive audience.

Mary Anne works for LASPAU, a non-profit group affiliated with Harvard University. Three other Brothers work at LASPAU: Ellen Kranzer, Eon Harry, and Greg McMullan (Heather Crum and Dave Policar have worked there in the past). Mary Anne is also doing an internship at North Cambridge Catholic H.S. as part of her degree requirements for her masters (at Emmanuel College). Mary Anne is a graduate student and has no life......

LEN TOWER JR., '71
CAROL BOTTERON, '68

36 PORTER STREET
SOMERVILLE, MA 02143

Phone: 623-7739

How would people get to your house? Red Line to Porter Square and walk 3 blocks (map below)

Other interesting information (Jobs, hobbies, offices held, etc.):

We can handle 4 brothers. We prefer equal numbers of men and women. Food is vegan (strict vegetarian) and sometimes lacto vegetarian. So if AX has any vegetarians, we're a natural.

Carol was not a brother (she graduated before women were allowed into AX, let alone APO). She's an environmental chemist with many interests including gardening and genealogy.

I share her interest in gardening and enjoy the arts and crafts involved in taking care of our house. I was an SVP, President, delegate to a National Convention or two, and the penultimate Carnival Chairman and ran the last Carnival AX sponsored. I've also served as Chapter Auditor doing two recovery periods from bad Chapter Treasurers. I have continuously served as Master of the Letterpress Shop since AX got it two decades ago. I help manage the GNU project at the Free Software Foundation and do some consulting on the side.
