

Planning Layouts

Layouts

- Arrange page items into a logical, consistent scheme
- Site & Page purpose is starting point
 - Determines space allocations
 - Assigns necessary visual prominence of items

Page Items

- Containing block
- Heading/Banner/Logo
- Navigation
- Content
- Aside/Sub-content
- Footer

Page Items in Detail

- Containing block
 - Container for all of the page's items
 - May define visible borders
- Heading/Banner/Logo
 - Contains branding information
 - Identifies the site to the user

Page Items in Detail

- Navigation
 - Orients the user within the site
 - Provides a uniform method for locating content
 - Should be a prominent item on all pages
- Content
 - Primary information to be conveyed by page
 - ➔ Most prominent in layout

Page Items in Detail

- **Aside/Subcontent**
 - Contents may be related to main content
- **Footer**
 - Provides parenthetical information about the site or page
 - Typical examples: Copyright, Contact Info

Aside/Subcontent

The image shows a screenshot of a web page with a light green background. On the left, there is a white box with a red header 'Dedicated Hosting Plans Include:' followed by a list of seven features, each preceded by a green checkmark. On the right, there are two text boxes with orange headers. The top one is titled 'What Is Dedicated Hosting?' and describes the benefits of having a dedicated server. The bottom one is titled 'How Is Dedicated Hosting Better (Or Worse) Than Virtual Dedicated Hosting?' and compares dedicated hosting to virtual private servers. A third header 'Can You Administer And Monitor My' is partially visible at the bottom right.

Dedicated Hosting Plans Include:

- ✓ **Root Access**
- ✓ **Your Choice of Installed Software**
- ✓ **Less than 24 Hr Setup Time [?]**
- ✓ **AMD Opteron 170 - 2 x 2.0GHz CPUs**
- ✓ **1 GB DDRI 400 RAM**
- ✓ **1 x 250GB SATA II Disk**
- ✓ **100 Mbps Public & Private Networks**
- ✓ **World-Class Tier-Four Datacenter**

What Is Dedicated Hosting?
Dedicated Hosting is where you are given full access to your very own server. All the RAM and CPU are reserved for your processes and you can install and customize software to fit your needs.

How Is Dedicated Hosting Better (Or Worse) Than Virtual Dedicated Hosting?
Dedicated Hosting offers all the advantages of a **virtual private server**, plus access to 100% of the server's RAM and CPU power. With more power comes more responsibility, however, so unless you opt for our fully-managed services you should plan to administer the server yourself.

Can You Administer And Monitor My
